DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, 30, 34, and 37-38 are drawn to a psychiatric information system, classified in class 705, subclass 2.
 - II. Claims 9-23, 31, 35, and 39 are drawn to a psychiatric dialogue box, classified in class 715, subclass 809.
 - III. Claims 24-29, 32-33, and 36 are drawn to a psychiatric information module, classified in class 707, subclass 100.
 - IV. Claim 40 is drawn to generating a bill, classified in class 705, subclass 34.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I has separate utility such as a healthcare management system, invention II has separate utility such as a dialog box, invention III has separate utility such as database schema or data structure, and invention IV has separate utility such as bill preparation. See MPEP § 806.05(d).

Art Unit: 3626

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
